

The drawing consists of two views of a mobile equipment frame:

- Left Side View:** Shows a frame with a total width of 60.000. The main body is 34.000 wide, with a 3.000 offset on the left. The height from the ground to the top rail is 88.643. The height from the ground to the bottom rail is 64.643. The height from the ground to the top of the main body is 55.643. The height from the ground to the bottom of the main body is 32.000. The height from the ground to the top of the main body is 41.000. The height from the ground to the top of the main body is 65.000. The height from the ground to the top of the main body is 32.000. The height from the ground to the top of the main body is 41.000. The height from the ground to the top of the main body is 65.000.
- Rear View:** Shows a frame with a total width of 66.000. The main body is 61.000 wide, with a 28.000 offset on the right. The height from the ground to the top rail is 88.643. The height from the ground to the bottom rail is 64.643. The height from the ground to the top of the main body is 55.643. The height from the ground to the bottom of the main body is 32.000. The height from the ground to the top of the main body is 41.000. The height from the ground to the top of the main body is 65.000. The height from the ground to the top of the main body is 32.000. The height from the ground to the top of the main body is 41.000. The height from the ground to the top of the main body is 65.000.

Clearance notes include:

- Will clear Pumpover Sump
- Will clear Vibratory Table
- Will clear Basket Press Basket
- Wide enough to clear Basket Press Frame
